INSTALLING NEW HARD DRIVE

How do I install a new/different hard-drive in the AW4416? If you install a new hard-drive in the AW4416, you will need to make sure it is COMPLETELY ERASED, otherwise the AW will throw up an error on boot-up and never ask if you would like to format the drive. For the IBM drives, you can use their "drive fitness test" program to erase the drive. IBM DRIVE FITNESS TEST: [download and burn iso to CD-R or DVD-R.](http://happyharry.net/yamaha/aw4416/apps/drive.fitness.test.iso)
